PROFESSIONAL SUMMARY

IT Professional and Full-Stack Developer with a Bachelor of Science in Information Technology (Cum Laude) and hands-on experience supporting, developing, deploying, and troubleshooting business applications and cloud-based systems. Experienced across application support, databases, cloud infrastructure, system administration, authentication, security, and software development. Strong background with Alibaba Cloud, Vercel, PostgreSQL, Microsoft SQL Server, Linux, Windows administration, and modern web applications.

CORE COMPETENCIES

Application Support | Cloud Operations | Cloud Deployment | Technical Troubleshooting | System Administration | Database Administration Fundamentals | Application Reliability | Authentication & Access Control | Incident Investigation | Technical Documentation | Windows Administration | Linux System Administration | Networking Fundamentals

PROFESSIONAL EXPERIENCE

Freelance | Independent Contractor

May 2026 – Present

- Managed end-to-end technology projects including requirements gathering, system design, development, deployment, troubleshooting, and client communication.
- Architected and deployed internal SaaS and business applications using Next.js, TypeScript, PostgreSQL, and Alibaba Cloud.
- Configured application environments and implemented authentication, authorization, RBAC, validation, rate limiting, and audit logging.
- Worked independently to identify technical requirements, investigate implementation issues, and deliver practical technical solutions.

Department of Public Works & Highways

Information Systems Researcher I | October 2025 – May 2026

- Conducted research and analysis on GIS systems used in government infrastructure project management.
- Supported documentation, data management, and reporting workflows across departmental GIS initiatives.
- Worked with information systems and GIS technologies supporting operational requirements.

SELECTED PROJECTS

ColabHealth - Healthcare Booking & HMO Platform

Cloud-Based Healthcare SaaS Platform | 2026

- Designed and developed a healthcare SaaS platform supporting appointment booking, HMO management, and patient services.
- Implemented authentication, role-based access control, rate limiting, login protection, transaction safety, concurrency handling, and security hardening.
- Configured PostgreSQL infrastructure and deployed the application using Vercel; worked with Alibaba Cloud technologies.
- Integrated an AI-powered chatbot using Alibaba DashScope (Qwen-Plus).
- Maintained TypeScript strict mode, zero ESLint violations, and Lighthouse 90+ performance scores.

Technologies: Next.js 15, React, TypeScript, Node.js, Prisma, PostgreSQL, Auth.js v5, Tailwind CSS, Zod, Vercel, Alibaba DashScope

Sandbox Clinic Prime - Clinic Operations Platform

Business Application | 2026

- Built a clinic management system supporting appointments, doctor management, scheduling, HMO workflows, and payment tracking.
- Developed a public marketing website and administrative operations panel.
- Implemented Auth.js v5 RBAC, audit logging, soft-delete guards, and secure server actions.
- Designed Prisma database models and deployment configurations for Vercel and Alibaba Cloud.

Technologies: Next.js 15, React, TypeScript, PostgreSQL, Prisma, Auth.js v5, Tailwind CSS, Shadcn/UI, Zod, Vercel, Alibaba Cloud

EDUCATION

Bachelor of Science in Information Technology | STI College – Sta. Mesa | 2021 – 2025 | Cum Laude

Senior High School – STEM Strand | National University – Nazareth School | 2019 – 2021

CERTIFICATIONS

- Cisco Introduction to Cybersecurity – Cisco Networking Academy | July 2025
- Microsoft SQL Server Database Administration – Udemy | April 2025
- Lean Six Sigma White & Yellow Belt – Council for Six Sigma Certification | March 2025
- Cloud Computing – Development & Basic Concepts – Huawei Academy | December 2024

- SAP Business One (Basic & Advanced) – FIT Academy | February 2024
- System Administration – Linux Professional Institute | June 2022
- Java Foundations – Oracle Academy | June 2022

TECHNICAL SKILLS

Cloud Platforms: Alibaba Cloud (ECS, RDS, OSS, CDN), Huawei Cloud, Vercel

Infrastructure: Docker, NGINX, Git, GitHub

Operating Systems: Windows, Linux

Databases: PostgreSQL, Microsoft SQL Server, MySQL, Prisma ORM, Prisma Migrations, Neon PostgreSQL

Application Technologies: Next.js, React, TypeScript, Node.js, REST APIs, Server Actions

Security: Authentication & Authorization, RBAC, Rate Limiting, Input Validation, Audit Logging, Secure API Design

Enterprise Systems: SAP Business One, PayMongo, AltPayNet

Automation & GIS: Microsoft Power Automate, ArcGIS Pro, ArcGIS Online, Web GIS Applications
