Quezon City, Philippines | 0935 460 3236 | paulpascual316@gmail.com | linkedin.com/in/paul-adrian-pascual-a87866368

PROFESSIONAL SUMMARY

Full-stack developer and IT professional with a Bachelor of Science in Information Technology (Cum Laude). Experienced in building and deploying production-grade web applications including a healthcare SaaS platform, a clinic operations system. Currently working as an AI Associate at Phil Capital Trading Solution Inc. Holds certifications in SQL Server, SAP, Cybersecurity, Cloud Computing, Lean Six Sigma, Linux System Administration, and Java.

WORK EXPERIENCE

AI Associate | Solo Full-Stack Developer | Phil Capital Trading Solution Inc. | May 2026 – Present

- Applies artificial intelligence and information systems expertise to support trading operations and data workflows.
- Develops and maintains internal tools and automation solutions to improve operational efficiency.

Information Systems Researcher I | Department of Public Works & Highways | October 2025 – May 2026

- Conducted research and analysis on GIS systems used in government infrastructure project management.
- Supported documentation, data management, and reporting workflows across departmental GIS initiatives.

PROJECTS

ColabHealth – Healthcare Booking & HMO Platform | 2026

- Designed and built a full-stack SaaS platform for medical service bookings and HMO management targeting the Philippine healthcare market.
- Implemented single and group booking flows, HMO provider management, HMO-as-payment method, and an AI chatbot powered by Alibaba DashScope (Qwen-Plus) via OpenAI-compatible SDK.
- Executed a 22-PR multi-wave security and reliability audit covering concurrency, transaction safety, rate limiting, login circuit breakers, and role-based access control hardening.
- Deployed on Vercel with Neon PostgreSQL (AWS Singapore); planned migration to Alibaba ApsaraDB RDS for production compliance.
- Maintained TypeScript strict mode, zero ESLint violations, and Lighthouse 90+ performance scores throughout development.

Technologies: Next.js 15, TypeScript, Prisma ORM, PostgreSQL, Auth.js v5, TailwindCSS, Zod, Vercel, Alibaba DashScope

Sandbox Clinic Prime – Full-Stack Clinic Operations Platform | 2026

- Built a complete clinic management system for Sapphire Clinic Prime, Inc. covering 2 branches across Philippines
- Developed a public marketing landing page (mobile-first, brand-matched, Lighthouse-optimized) and a full admin operations panel.
- Admin features include appointment booking management, doctor management, shift/decking scheduling, HMO application workflow (Approve/Disapprove/Pending), and a payment tracker with CSV export.
- Implemented Auth.js v5 RBAC, audit logging, soft-delete guards, and server action security. Designed Prisma data model and deployment manifests for Vercel and Alibaba Cloud.

Technologies: Next.js 15, TypeScript, Prisma, PostgreSQL, Auth.js v5, TailwindCSS, Shadcn/ui, Zod, Vercel, Alibaba Cloud

Drip & Thrive – Full-Stack Clinic Operations Platform | 2026

- Developed a portable, embeddable frontend widget for wellness clinics featuring a conversational quiz engine, medical safety screening, and protocol routing logic.
- Widget flow: multi-step assessment → medical flag detection → personalized protocol recommendation → lead capture form.
- Designed as a zero-dependency, drop-in artifact with a documented generation prompt enabling rapid reskinning for different clinic brands.

Technologies: React, TypeScript, TailwindCSS, Embeddable Widget Architecture

EDUCATION

Bachelor of Science in Information Technology | STI College – Sta. Mesa | 2021 – 2025

GWA: 1.50 – Cum Laude

Senior High School – STEM Strand | National University – Nazareth School | 2019 – 2021

CERTIFICATIONS

Cisco Introduction to Cybersecurity – Cisco Networking Academy (July 2025)

Microsoft SQL Server Database Administration – Udemy (April 2025)

Lean Six Sigma White & Yellow Belt – Council for Six Sigma Certification (March 2025)

Cloud Computing – Development & Basic Concepts – Huawei Academy (December 2024)

SAP Business One (Basic & Advanced) – FIT Academy (February 2024)

System Administration – Linux Professional Institute (June 2022)

Java Foundations – Oracle Academy (June 2022)

SKILLS

Full-Stack Development: Next.js 15, React, TypeScript, Node.js, Prisma ORM, PostgreSQL, Auth.js v5, TailwindCSS, Zod, Server Actions

Programming Languages: Python, Java, C#, JavaScript, HTML/CSS

Databases: PostgreSQL, MySQL, Microsoft SQL Server, Neon, Prisma Migrations

Cloud & DevOps: Alibaba Cloud (ECS, RDS, OSS, CDN, NGINX), Vercel, Huawei Cloud, Docker

ERP Systems: SAP Business One (Basic & Advanced)

Cybersecurity: RBAC, Rate Limiting, Server Action Security, Cisco Cybersecurity Fundamentals

IT Support: Troubleshooting, Helpdesk Operations, End-User Assistance

Process Improvement: Lean Six Sigma (White & Yellow Belt), Process Documentation

GIS: ArcGIS – Dataset Management, Map Creation, Mobile & Web Application Development

AI Tools: Claude Code, ChatGPT, Google Gemini, Blackbox AI, Perplexity AI

Other: Github, Google Workspace, Go Daddy, Microsoft Office 365, Paymongo, AltPayNet
